

Zirconite

FABRIC PROTECTOR

Total Protection:

Zirconite Fabric Protector provides an invisible barrier to everyday spills, stains and soiling on automotive fabrics and carpets eg Juices, Cola, Tea, Coffee etc.

Non-Stick Micro-Resin

This unique Zirconite Coating seals the fibres of seats and carpets with an invisible protective film, not only protecting the interior trim, but allowing for easy clean-up and surface care.

Ease of maintenance extends fabric and carpet life.

Directions:

Important Notes: Read MSDS before use

The surface to be treated must be colourfast, free from dirt etc and thoroughly dry.

Do not use on Vinyl, Leather, Suede, Rubber or solvent sensitive surfaces.

Ensure adequate ventilation during application.

Vehicle windows must be opened during use of this product with good through-flow of air.

Wear a suitable respirator/facemask.

1. Shake well before use.
2. Spray evenly from a distance of 15-20cm, do not saturate the fabric.
3. Apply two coats, use full can for best results.
4. Touch dry in 5-10 minutes, for maximum protection allow to fully cure for 4 hours.

Ensure surfaces are fully dry before allowing the vehicle back into service.

Typical Specification :

Composition	: P.T.F.E Resin & propellant in aerosol form.
Appearance	: Clear
F.P.	: -40°C
pH	: N/A
Odour	: Hydrocarbon.
Can Pressure	: 2.75 bar
Solubility	: Insoluble in water
Shelf Life	: 2 years at ambient temperature.
Packaging	: 400ml aerosol can.
